IN BRIEF
BODY OF JEM TERRORIST RECOVERED IN J-K'S DODA; US-MADE M4 CARBINE SEIZED

JAMMU: (Sep 12) A highly decomposed body of a suspected Pakistani terrorist affiliated with the proscribed Jaish-e-Mohammad (JeM) outfit was recovered from the higher reaches of Doda district in Jammu and Kashmir on Saturday, officials said. The condition of the body has led investigators to believe that the terrorist may have sustained injuries during an encounter with security forces last year and subsequently succumbed to those injuries while hiding in the forested terrain, they added. A US-made M4 carbine along with some ammunition was recovered alongside the unidentified body, indicating that the deceased was likely a top commander of the Pakistan-based outfit, the officials said.

On Day 1, BRICS unanimously adopts New Delhi Declaration

That it was adopted on the first day of the Summit is being seen as an accomplishment of the host, India, for managing to bring all BRICS members to an agreement.

New Delhi: Against the backdrop of conflicts in different parts of the world, the 10th BRICS Summit on Saturday, September 12, saw member countries unanimously adopt the New Delhi Declaration. The consensus on a range of global issues underscored the need for greater cooperation among BRICS members.

That it was adopted on the first day of the Summit is being seen as an accomplishment of the host, India, for managing to bring all BRICS members to an agreement. "No member has raised any objection. The New Delhi Declaration 2020 is adopted unanimously," PM Modi said.

The following are the key takeaways of the New Delhi Declaration:

While expressing alarm over terrorism in Sudan

and Syria, the Declaration calls for zero tolerance for terrorism and rejects double standards in counterterrorism. It specifically condemns the 2020 terror attack in Pabalgam in Jammu-Kashmir, where 29 people were shot dead in indiscriminate firing. "We emphasise the primary responsibility of States in combating terrorism and that global efforts to prevent and counter terrorist threats must fully comply with their obligations under international law," it says.

Without naming any nation in particular, it says, "We reaffirm our commitment to combating terrorism in all its forms and manifestations, including the cross-border movement of terrorists, terrorism financing and safe havens."

The review meeting was held at the Legislative Council Conference Hall on the Assembly premises. Ministers Ponnambalam, Azharselvan, MP Venkatesh Reddy, MLAs Dananjay Nagender and Sri Ganesh, commissioners of GHMC, MMC and HYDRABAD, senior police officials and representatives of Ganesh Utsav committees attended. The Chief Minister said his government had revised the practice of

CM Revanth reviews Ganesh festival arrangements

Hyderabad: TSIT BUREAU: Chief Minister A. Revanth Reddy on Saturday reviewed arrangements for the Ganesh festival across Hyderabad and directed municipal and police authorities to maintain round-the-clock coordination to ensure peaceful celebrations and smooth immersion of idols.

The review meeting was held at the Legislative Council Conference Hall on the Assembly premises. Ministers Ponnambalam, Azharselvan, MP Venkatesh Reddy, MLAs Dananjay Nagender and Sri Ganesh, commissioners of GHMC, MMC and HYDRABAD, senior police officials and representatives of Ganesh Utsav committees attended. The Chief Minister said his government had revised the practice of

directly interacting with festival organisers to understand their problems and make necessary arrangements. He said Ganesh pandals were being provided five electricity and asked organisers to apply to the authorities concerned to avail themselves of the facility. Organisers should also provide advance information about the location of pandals to enable police to plan traffic regulation and security arrangements effectively.

Revanth Reddy asked organisers to inform the local police commissionerate whenever prominent guests were invited to pandals so that adequate security arrangements could be made and unforeseen problems avoided. The Chief Minister directed officials to incorporate facilities for Ganesh idol immersion while developing lakes, similar to arrangements being made for

Bathukamma celebrations. Adequate space and infrastructure should be provided around lakes for the deployment of cranes during immersion, he said. He instructed municipal and police departments to maintain continuous supervision until the conclusion of the festivities. A dedicated control room should be established at the Command Control Centre and special officers appointed for effective monitoring and coordination. "Investments will come only when Hyderabad remains peaceful," Revanth Reddy said, stressing that law and order should not be disturbed during the festivities. He sought the cooperation of Ganesh Utsav organisers and assured them that the government was ready to address any problems they faced.

PM and BRICS leaders participate in a joint tree plantation at the outside havens of Bharat Mandapam on the sidelines of the 10th BRICS Summit, in New Delhi

NIA raids 10 locations in J-K in LeT-linked cross border terror case

SRINAGAR (TSIT): The National Investigation Agency (NIA) on Saturday conducted searches at 10 locations in Jammu and Kashmir in connection with a cross-border terror conspiracy involving Pakistani-based handlers of the proscribed terrorist outfit Lashkar-e-Taiba (LeT) and their alleged network of local operatives.

Ground. Workers (OGWs). The searches were conducted at locations in Kupwara, Bandipora, Baramulla, Srinagar and Sopore to unearth further evidence relating to the conspiracy and to ascertain the roles of individuals providing logistical and other support to infiltrated terrorists. A statement issued by the NIA said.

Centre Assures Full Support to AP Healthcare: JP Nadda

'MENT OF HEALTH, MEDICAL & FAMILY WELFARE' INCHARGE

VIJAYAWADA (TSIT): Union Minister for Health and Family Welfare J.P. Nadda has assured complete Central cooperation for strengthening health-care and upgrading medical infrastructure in Andhra Pradesh. He responded positively to Chief Minister N. Chandrababu Naidu's request to grant national status to the proposed Quantum Bio Valley project in Amaravati, announcing that a specialized technical team would soon visit for discussions. On Saturday, Nadda and Naidu visited the Old Government Hospital in Vijayawada to inaugurate a Critical Care Block and a Public Health Lab. They later virtually launched 10

Critical Care Blocks and 12 Integrated Public Health Laboratories across the state, built at a cost of Rs.249 crore. Speaking at Ambedkar Kala Vedika, Nadda praised the state's 'Sanjeevani' initiative as excellent and said the Centre would explore implementing it nationally. He lauded Naidu as a visionary leader, remarking that Andhra Pradesh is in "safe hands" under his stewardship. The event also highlighted the government's plans to digitalize health records from January 1, marking a significant step towards modernizing healthcare delivery and improving patient care across the state.

Balaghat child deaths: CJP convener Dikpe visits tribal villages, demands accountability

BALAGHAT (TSIT): Cockroach, Jaala Party (CJP) convener Abhijit Dikpe on Saturday visited tribal villages in Madhya Pradesh's Balaghat district to meet families who recently lost their children to infectious diseases and demanded accountability from the administration. Accompanied by local youth, Dikpe travelled to Adori, Korla, and Bondari villages to gather details on

local healthcare facilities and the circumstances surrounding the child deaths. Dikpe's visit comes days after the Madhya Pradesh High Court issued notices to the state government over the deaths of more than 30 children, allegedly due to P.18, alleged overcrowded hospitals, contaminated drinking water, and lack of nutrition in the district.

No proposal for BRICS currency 'as of now': MEA

New Delhi (TSIT): There is no proposal for a BRICS currency 'as of now', while discussions on trade in local currencies have been underway for some time, the Ministry of External Affairs (MEA) said on Saturday. In a press briefing, MEA's Secretary, Economic Relations, Sudhakar Datta, said: "There is no proposal in the BRICS for a BRICS currency as of now."

"Discussions on trade in local currencies have been underway for some time," he said. "We believe local currency settlement is a practical mechanism to reduce transaction costs in bilateral trade. This has been encouraged as complementary to the global payment and settlement system, improving overall global trade across nations," he said.

The mechanism can help reduce transaction costs in bilateral trade and is being encouraged as a complement to the global payment system. Datta further stated that the "BRICS MSME" cooperation portal, cooperation on global value chains, and logistics frameworks were among the key highlights during the BRICS Summit. He said that BRICS coop-

eration on DPI, a science and research repository, and collaboration on start-ups were also the key highlights. Datta said it had been a year of robust participation and engagement, with more than 350 meetings held under the India's BRICS chair. He described it as a "whole-of-nation effort", with BRICS engagement taking place in more than 30 cities across the country. He further informed that there were 150 practical outcomes across four pillars from the BRICS Summit.

India now 4th-largest forex holder after hitting record USD 44.9 billion inflow in 1 week

New Delhi (TSIT): Strong dollar inflows under the Reserve Bank of India's (RBI) concessional swap window, particularly the foreign currency (bank) - or FCNR (B) - deposits scheme, helped India's foreign exchange reserves post their largest weekly increase, rising by USD 4.9 billion to a record USD 78.7 billion in the week ending September 4.

According to estimates, this surge propelled India above Russia to become the world's fourth-largest holder of foreign exchange reserves, behind China, Japan, and Switzerland. In the week ending August 28, total reserves had reached a previous high of roughly USD 740 billion. However, the rupee is still under pressure, on Friday, it dropped for the

fourth session in a row to end at 95.56 to the dollar from 94.45 due to pressure from rising crude oil prices and US Treasury yields. Dealers reported that it reduced losses following RBI intervention. Since the start of the conflict in West Asia, the rupee has lost 4.79 per cent of its value, and this month it has lost 0.4 per cent, according to the latest RBI data pro-

vided on Friday, foreign currency assets, which make up the majority of the FX reserves, increased by USD 47.5 billion to USD 64.17 billion during the week ending September 4. The impact of fluctuations in the value of non-US currencies held in the reserves, such as the euro, pound, and yen, is also reflected in the figure, which is expressed in dollars. In contrast, gold

prices dropped 0.56 per cent to USD 4,429 an ounce during the week, causing gold reserves to drop by USD 2.59 billion to USD 113.81 billion. As more foreign currency inflows are expected to continue until the second week of September, market participants anticipate that foreign currency assets will increase even more, possibly surpassing USD 65 billion. By August 31, foreign cur-

rency inflows totaling USD 136.4 billion had been mobilized by the RBI's exceptional swap operations. While external commercial borrowings and foreign currency bonds are still eligible under the facility until December 31, the window for FCNR (B) deposits ended on August 31. Up until September 11, banks may use the swap facility for deposits that have already been committed.

President Murmu meets Iranian counterpart, reiterates India's commitment to enduring peace

New Delhi, Sep 12: President Droupadi Murmu on Saturday reiterated India's commitment to the pursuit of enduring peace through dialogue and diplomacy during a meeting with her Iranian counterpart, Masoud Pezeshkian, in New Delhi.

"President of the Islamic Republic of Iran Dr. Masoud Pezeshkian met President Droupadi Murmu at Rashtrapati Bhavan. The two leaders discussed the long-standing bonds of friendship between Iran and India, including our strong cultural and people-to-people ties. The President reiterated India's commitment to the pursuit of enduring peace through dialogue and diplomacy," the President's Secretariat stated on X.

Prime Minister Narendra Modi on Friday said India and Iran should

move forward with a long-term and win-win strategy. PM Modi made the comment following his meeting with the Iranian President on the sidelines of the 18th BRICS Summit in New Delhi.

PM Modi also noted that President Pezeshkian's visit is "more special" as he is visiting India for the first time. "From Bishkek to Delhi, the productive discussions continue. Happy to have met Dr. Masoud Pezeshkian, the President of Iran. This visit is more special

because it is his first visit to India," PM Modi stated on X. "We talked about the India-Iran friendship. We believe that we should move forward with a long-term and win-win strategy. The prevailing situation in the region was also discussed. India remains steadfast in its commitment to the pursuit of enduring peace," he added.

During their discussions, PM Modi also pressed on safeguarding freedom of navigation and commerce and the safety and well-being of seafar-

ers. This was the second meeting between the two leaders in under two weeks. They had met earlier on the sidelines of the SCO Summit in Bishkek on August 31.

As the two leaders discussed various aspects of the bilateral relationship, Prime Minister Modi also thanked Iran for its regular, high-level participation in BRICS-related meetings despite the "challenging circumstances".

He noted the potential for BRICS in building the spirit of resilience, innovation, cooperation and sustainability among countries in the Global South.

According to the Ministry of External Affairs (MEA), PM Modi also thanked President Pezeshkian for his participation in the Leaders' Session of the BRICS Business Forum.

Adani Electricity offers temporary connections to Ganesh pandals

Mumbai, Sep 12: Adani Electricity said on Saturday that it is committed to supporting the upcoming Ganesh Festival celebrations in Mumbai by making temporary electricity connections available to Ganesh pandals at a

residential rate. This initiative ensures that pandals across the city have access to reliable power during the festivities. Ganesh pandals can receive their temporary electricity connection within 48 hours of submit-

ting their application. "By offering reliable temporary electricity connections for Ganesh Pandals, we aim to ensure the festival's spirit is celebrated with uninterrupted power. This initiative reflects our dedication to serving our

customers," an Adani Electricity spokesperson said. The pandals can visit the Adani Electricity website www.adanielectricity.com and navigate to the 'New Connection' section for temporary connection supply.

Aarambha-2026' for the 2026 Batch Inaugurated at Sir M. Visvesvaraya Institute of Technology

Bengaluru: India is moving towards the Fourth Industrial Revolution through Artificial Intelligence (AI) technology and priority must be given to using AI technology ethically, said retired IAS officer and former ambassador Dr. T.V. Nagendra Prasad.

He was speaking during 'Aarambha-2026', Freshers Day for the 41st batch of students organised by Sir M. Visvesvaraya Institute of Technology, under the Sri Krishnadevaraya Educational Trust. The event was attended by 1100 students along with their parents.

Dr. Nagendra Prasad said that the corporate sector has witnessed significant changes over the past two decades, with several major companies emerging in the country. Artificial Intelligence is bringing substantial changes to daily life, professional careers and the education system.

He expressed confidence that young Indian technology professionals in the AI era have the potential to establish technology giants like Microsoft and Google. He urged students to strive for higher positions through hard work, discipline and

honesty. He also noted that the technical education system is undergoing significant changes and emphasised that it is extremely important for students to remain aware of developments taking place in their surroundings.

Speaking on the occasion, Air Vice Marshal V.R.S. Raju said that students must acquire a strong foundation in technical and scientific education before pursuing higher studies in any field. He advised students to set clear goals about what they wish to achieve over the next five to ten years.

He added that students today have numerous opportunities to learn and explore and encouraged them to stay away from imitating others and develop healthy and productive habits. During the event, students and faculty achievements awards were given away by the Guests.

Sanjay K.R., Secretary of the Sri Krishnadevaraya Educational Trust (SKET), in his presidential remarks described the occasion as the start of an exciting new chapter for the students and their families. He added that growing engagement with industry and alumni continues to create opportunities for

Industrial training, Internships, mentoring and career development, with alumni increasingly partnering in the institute's growth. Reaffirming that education must extend beyond classrooms and examinations, Sri Sanjay K.R. said the institute's goal is to nurture competent professionals, responsible citizens, innovators, entrepreneurs and future leaders. On behalf of the Board of Trustees and faculty, he assured parents and students of the Trust's continued commitment to quality education, wishing the new batch a successful and fulfilling journey.

JSW MG Motor India Redefines the Future of Mobility; Launches the Hector Tomahawk in EV in Bengaluru

Bengaluru: JSW MG Motor India brought the Hector Tomahawk to Bengaluru, expanding the reach of its newly launched SUV. The SUV is built on ADAPT, the company's Advanced Drive Architecture Platform Technology and India's first Multi-New Energy Vehicle (NEV) platform. Combining intelligent technology, premium comfort, advanced safety and electric performance, the MG Hector Tomahawk is offered in Bengaluru with both Electric Vehicle (EV) and Plug-in Hybrid Electric Vehicle (PHEV) powertrains.

Marking the arrival of the MG Hector Tomahawk in Bengaluru, the event was held at MG Bengaluru. The SUV was unveiled in the presence of Ranalinga Reddy, Minister of Karnataka, Patrick Raju, Congress Leader, Ballari Constituency and Sunil Pai, CEO, Jubilant MotorWorks.

Starting at an Introductory Battery-as-a-Service (BaaS) price of Rs.239 lakh + 450 Rs/Km Battery Rental for the EV and Rs.21.79 lakh + 329 Rs/Km Battery Rental for the PHEV, the Hector Tomahawk is now available at MG dealerships across Bengaluru, giving customers in the city the freedom of choice while delivering the space, safety, and connected technology that Indian families expect from a modern SUV.

Vinay Raina, Chief Commercial Officer, JSW MG Motor India, said, "Karnataka is emerging as one of India's fastest-growing electric mobility markets and continuing to be one of our key markets. Bringing the MG Hector

Tomahawk to the city is a natural next step in our journey towards building a New Energy Vehicle (NEV) mobility ecosystem in India. With the Hector Tomahawk EV and the Hector Tomahawk PHEV, India's first plug-in hybrid electric vehicle (PHEV), we are providing customers in the region with access to some of the world's most advanced, next-generation mobility solutions closer to consumers across the country."

Mr. Sunil Pai, CEO, Jubilant MotorWorks, said, "We are delighted to bring the MG Hector Tomahawk to our customers in Bengaluru. The response to MG's NEV portfolio in the city has been very encouraging, and the new Hector Tomahawk, with its advanced electrified powertrain and segment-leading technology, is set to raise the bar further. Our dealership is fully equipped with the sales and after-sales infrastructure needed to give Hector Tomahawk customers a seamless ownership experience from day one."

Balid, Futuristic Design The MG Hector Tomahawk stands out with its bold, futuristic design and segment-

istic design and segment-leading proportions in its class, delivering significant space and comfort for every occupant. Measuring 4,745 mm in length, 2,130 mm in width (including mirrors), and 1,770 mm in height, it has been designed with substantial proportions and a commanding road presence, standing as the tallest and among the longest in its vehicle segment. With an expansive 2,810 mm wheelbase, MG Hector Tomahawk offers a spacious cabin that delivers best-in-segment space. With 260 mm of ground clearance at the battery, the SUV is engineered to deliver both commanding presence and everyday practicality.

The exterior design is enhanced by sculpted dynamic lines, signature Beacon Lights, an illuminated MG logo, distinctive Hetero Alloy wheels, and strong character lines that create a commanding road presence. Further elevating convenience and innovation, the Hector Tomahawk features the Automatic Power Tailgate, enabling effortless access to the cargo area at the touch of a button.

Elevated Cabin Comfort Inside, the MG Hector Tomahawk has been meticulously crafted to deliver a pre-

mium blend of comfort, connectivity, and versatility. The cabin showcases the exclusive Driver's Side Interior, featuring a sophisticated Almond Brown and Carbon Black theme complemented by premium leatherette seat upholstery, leatherette finished door armrests and dashboard inserts, and a leather-wrapped steering wheel. Enhancing occupant comfort are front ventilated seats, a 6-way power adjustable driver seat and a 4-way power-to-driver seat. The driver seat also features memory function with auto-retract for easy entry and exit. All windows feature one-touch auto up/down with anti-pinch function, adding further convenience to everyday use. Its spacious cabin is complemented by expansive boot capacity of up to 610 litres with all rows in use in the 7-seater configuration. In the 7-seater, the space can expand significantly as the third and second rows are folded. There is a flexible second row with 60/40 split, along with recline and slide functionality and an easy tip-and-tumble function for convenient third-row access in the 7-seater. The expansive dual-pane panoramic Cockpit Skyfold floods the interior with natural light, creating an open and airy atmosphere for all passengers. At the heart of the cabin is a large in-segment 15.6-inch (39.6 cm) HD Grand View Display, bringing intuitive, connectivity and vehicle controls together within one intuitive interface. Drivers benefit from a crisp 8.8-inch Multi-Information Display that displays crucial vehicle information easily accessible, while the 10-speaker Infinity premium audio system delivers an immersive entertainment experience.

BharatCloud and Ibentos Announce Strategic Partnership to Advance AI-Powered Brand Marketing & Event Technology Across India and Canada

New Delhi: BharatCloud, India's sovereign cloud services provider, has teamed up with Ibentos, an AI-driven technology company operating across North America and India, for future brand marketing initiatives and event technology.

The partnership was formalised following discussions between the two business entities at the recent India-Canada Business Summit held on the sidelines of the 7th India-Canada Ministerial Dialogue on Trade and Investment chaired by Union Minister Piyush Goyal. The partnership reflects BharatCloud's commitment to strengthening its brand marketing, event tech capabilities, and customer engagement by leveraging Ibentos' AI-powered platform. It is specifically significant during this time when MSMEs contribute 31% to India's GDP.

Hon'ble Commerce & Industry Minister Shri Piyush Goyal added, "The ministers noted robust growth in bilateral trade in goods and services, which reached \$23.66 billion in 2024, with merchandise trade valued at nearly \$8.98

billion, a substantial 10% increase over the previous year. The ministers reaffirmed the strength and resilience of the India-Canada economic partnership and emphasised the importance of continued engagement with the private sector to unlock new opportunities for trade and investment."

BharatCloud will also leverage Ibentos' HYPE, an AI-powered marketing platform, to create and manage its own on-brand marketing campaigns efficiently at scale, while exploring opportunities to empower its customers with the same AI-powered brand marketing capabilities. The collaboration will also bring abundant opportunities for collaborative implementation of AI-led event experiences to enrich audience engagement and amplify event

management. "Technology partnerships often begin with meaningful conversations, and this is also how this one started. Our interaction with the Ibentos team at India-Canada business missions brought out a common vision towards innovation and customer satisfaction."

Rahul Takalkalpal, Co-Founder, BharatCloud, said, "As BharatCloud will keep growing its footprint in different markets, we require a technology partner that can bring smarter and more interactive experiences to our marketing campaigns, events and digital engagements. We see this partnership as a means to offer richer digital experiences to our customers and partners."

"Meeting the founder and CEO of BharatCloud dur-

ing his visit to Canada as part of an Indian business delegation revealed a strong alignment between our vision, customer base and approach to innovation. With the Ibentos founders' decade-plus experience in digital marketing and branding for Indian businesses, combined with the capabilities of our new AI-powered marketing platform, Ibentos HYPE, we see an exciting opportunity to strengthen the BharatCloud brand and empower its customers with intelligent, scalable and on-brand marketing solutions," shared Jasprender Bhatia, Co-founder & CMO of Ibentos Inc.

Ibentos has powered more than 3,000 events across over 30 countries through its event technology solutions. Building on this experience, the company has launched Ibentos HYPE, an AI-powered marketing platform that enables brands to create and manage on-brand marketing campaigns efficiently at scale. Through this partnership, both companies aim to further enhance these capabilities using secure, enterprise-grade cloud infrastructure.

Can Fin Homes Showcases 'Project Tejas', its Rs.296.95-Crore Enterprise Digital Transformation Programme

Bengaluru: Can Fin Homes Ltd. unveiled Project Tejas, its enterprise-wide digital transformation programme aimed at further advancing the Company's technology and business capabilities. Project Tejas symbolises a paradigm shift towards a digital future for Can Fin Homes. The acronym 'TEJAS' stands for Tech Enhanced Journey for Agility & Scalability.

Project Tejas advances Can Fin Homes' technology architecture through a modern, API-led and scalable framework, bringing together core applications and enterprise systems on a connected digital platform. The seven-year transformation programme, valued at Rs.296.95 crore, reflects the scale and strategic importance of the initiative in strengthening the Company's technology capabilities

and supporting its future growth.

The transformation spans critical business functions including loan origination and management, collections, deposits, finance and accounts, document management, risk and asset liability management, HRMS and enterprise reporting. These are supported by cloud infrastructure, SD-WAN connectivity, Network and Security Operations Centres, API management and disaster recovery capabilities.

"Project Tejas represents a fundamental transformation in the way Can Fin Homes operates, serves customers and prepares for future growth. By integrating our core applications, cloud infrastructure, data, cybersecurity and digital processes, we are creating a more agile, resilient and scalable organisation. Our focus is to use tech-

nology responsibly to simplify customer journeys, strengthen risk management and enable faster, data-led decision making across the business," said Shri Suresh Iyer, Managing Director &

CEO, Can Fin Homes Ltd. At the business level, Project Tejas transforms the end-to-end home loan journey through digitised workflows, faster processing, reduced manual

intervention and real-time visibility across operations. The platform integrates 25+ fintech partners, enabling instant bureau checks, account aggregation, credit assessment, digital collection, customer self-service, real-time status updates and dashboards across risk, operations and sales. Together, these capabilities create a connected lending ecosystem that improves speed, security and scalability.

The programme has been delivered through a strong consulting implementation and technology ecosystem. PricewaterhouseCoopers (PwC), as consulting partner, has supported transformation advisory, business process optimisation, change management and Programme Management Office governance. KPMG, as imple-

mentation supporting partner, has provided specialised assistance across implementation, risk, compliance and functional and technical areas. IBM India Pvt. Ltd., the system integrator, is leading end-to-end technical integration across applications, infrastructure, cloud, networking and cybersecurity. The broader OEM ecosystem includes Fortinet Technologies for Loan Origination, Loan Management and Collections; Kiya for Deposits; Astral India for Finance & Accounts; Newgen for Document Management; Knight FinTech for Borrowing & Investments and Risk & ALM; Trust for Aadhaar Data Vault; Workline for HRMS and Shephard for enterprise reporting. On the technology side, Amazon Web Services supports cloud and API architecture, Microsoft support Mailbox

and collaboration, Fortinet and Cisco support SD-WAN, Hadoop supports NOC and IT Service Management, while Blue and Arcus support Security Operations Centre & Identity and Access Management components. Can Fin Homes is also progressively embedding AI-enabled capabilities across document processing, bank statement analysis, fraud control checks and employee services, while evaluating future applications in underwriting, collections, customer servicing and management decision support. Project Tejas provides the company with a secure, scalable and continuously evolving digital foundation to support stronger governance, operational efficiency and a more seamless home-finance experience.
