

Delta farmers pin hopes on medium & short-term paddy varieties this season

N RAMESH @ Thanjavur

WITH the delayed release of water from Mettur dam for samba irrigation, farmers are planning to sow medium-term and short-term paddy varieties in the samba and thaladi season, and have urged the Agriculture Department to provide seeds free of cost or at least with a subsidy, at the earliest.

Delta farmers usually cultivate long-term paddy varieties such as CR 1009 and ADT 51 which are of 150-155 days duration. CR1009 variety is also tolerant to submergence in flood-water and ADT 51 has high milling recovery. However, farmers said they can no longer afford to raise such long-term varieties.

V Mariappan, a farmer from Pulavankadu said, “We need medium-term varieties like ADT 39, CO-43 which are of 120-135 days duration. These varie-

REPRESENTATIONAL PIC

ties were introduced more than 10 years ago and are not eligible for subsidy. Taking into consideration the delayed release of water, the government should supply these seeds free of cost, or at least with subsidy.”

While farmers like R Sukumar of Kakkarai near Orathanadu also demanded supply of medium-term varieties like IR -20, TPS 5, those like P Sukumaran of Tiruppon-

thurthi said water level in Mettur dam would be insufficient to raise even these varieties.

“We need at least 95 tmcft of water from the dam in addition to 35 tmcft of rainwater during north east monsoon to complete samba cultivation. However, water level at the dam currently stands only at 50 tmcft now, considering 5 tmcft of dead storage,” he said.

Farmers might be forced to cultivate short-term varieties like ADT 36, ADT-53, ADT-43 and ADT-45, and the government should stock seeds of these varieties, Sukumaran added.

Officials of the Agriculture Department are hopeful of meeting the demands of farmers. They said seed requirement is around 3,000 tonnes for an expected samba and thaladi coverage of 1.25 lakh hectares in Thanjavur district. As of now, Agriculture Extension

Centres of the government have a stock of 1,334 tonnes.

Of these, 327 tonnes are medium-term varieties and 195 tonnes are short-term varieties. Indents have also been placed with other districts for 100 tonnes of medium-term varieties.

Private traders have 1,820 tonnes of seeds, of which medium-term varieties account for 800 tonnes and short-term varieties 500 tonnes, officials added.

In Tiruvavur district, coverage is expected to be 1.46 lakh hectares and 798 tonnes of medium-term variety seeds and 189 tonnes of short-term variety seeds are currently in stock. Besides, 200 tonnes have been sought from other districts.

Water level in Mettur dam on Wednesday stood at 91.9 feet (54.89 tmcft). The inflow was recorded as 10,288 cusecs and outflow 4,918 cusecs.

Lok Adalat to be held at seven courts on Sept 12

TIRUCHY: National Lok Adalat will be held at seven courts in Tiruchy district on September 12 to facilitate the amicable settlement of pending cases, including civil disputes, divorce petitions, motor accident claims and cheque-bounce cases.

Announcing this at a press meet, Tiruchy Principal District Judge M Christopher said the Lok Adalat will be conducted at the Tiruchy district court complex and courts in Manaparai, Thuraiyur, Lagudi, Musiri, Srirangam and Thottiyam. As part of preparations, special benches comprising serving judges have been taking up pending cases for settlement from August 24 to September 9. 3,334 cases were settled in Tiruchy district during the Lok Adalat held in March. With around 62,000 cases currently pending, litigants seeking an amicable settlement have been urged to make use of the upcoming Lok Adalat. For queries, contact 0431-2460125. *ENS*

A stray dog spotted in the MGMGH premises | MK ASHOK KUMAR

Strays put patient-attendant safety at risk in MGMGH

EXPRESS NEWS SERVICE @ Tiruchy

STRAY dogs roaming in Mahatma Gandhi Memorial Government Hospital (MGMGH) campus are causing concern among patients and attendants. Around 20 dogs allegedly roam across different parts of the hospital, particularly around parking areas, open spaces and places where attendants gather, wait or sit. Attendants said the problem becomes bigger after dark when people move between wards, pharmacies and other sections of the hospital.

The issue comes up in the backdrop of the Supreme Court issuing directions to remove such canines from public places like hospitals.

“We see stray dogs in different places and sometimes in groups. At night, people are scared to move, and are very cautious,” said P Sarathi, an attendant.

M Dinesh Rengarajan, another attendant, said the dogs are particularly troublesome around places where people gather. “There are people sitting and waiting in different parts of the campus, where dogs are a big menace. At night,

dogs move in groups, and people are afraid that they might be chased,” he said.

Concerns of dog bite incidents going unreported are also raised. S Tamil, another attendant, alleged, “If someone is bitten, they can get the anti-rabies vaccine at MGMGH itself. So, the person might take the shot without making a complaint about the incident.”

It may be noted that there is no readily available data with MGMGH on the number of dog-bite incidents inside the campus or how many cases might have gone unreported.

A senior MGMGH official said, “Stray dogs are being regularly monitored and steps are being taken whenever their presence is brought to our notice.”

Corporation officials said stray dogs are also being regularly monitored as part of the civic body’s control measures and complaints concerning the hospital will be looked into.

Activists, such as, M Ibrahim of CPI have urged the authorities to take immediate steps to clear the stray dogs from the hospital, and regularly monitor the premises.

Tiruchy airport handles 721-T cargo, highest in Aug since '19

EXPRESS NEWS SERVICE @ Tiruchy

TIRUCHY International Airport handled a record 721 tonnes of international export cargo in August 2026, crossing 700 tonnes in a single month for the first time since the 2019 pandemic.

Perishable goods accounted for around 95% of the total cargo. Exporters said the milestone is expected to further strengthen Tiruchy’s position as an important international air cargo gateway for Tamil Nadu and support re-

gional exports and economic activity. Of the 721 tonnes of export cargo, around 685 tonnes were perishables, including vegetables, fruits, flowers, dairy products, chilled fish and prawns. The remaining 36 tonnes comprised general cargo such as garments, fabrics, food products and imitation jewellery, officials said.

With the limited belly space on passenger flights operated by Air India Express, IndiGo Air, Scoot Air, Batik Air and Sri Lankan Airlines, consignments are being transported to

various destinations in Asia and Middle East including Singapore, Kuala Lumpur, Dubai, Sharjah, and Colombo.

The availability of air cargo connectivity helps these perishables reach overseas destinations quickly, exporters said expressing confidence that Tiruchy International Airport would soon have the capacity to operate dedicated cargo flights.

Tiruchy airport has been witnessing increasing demand from exporters, particularly for perishables and other high-value commodities. The record cargo movement re-

CARGO HANDLED IN LAST FIVE YEARS (IN TONNES)	
2021-22	4,920
2022-23	6,410
2023-24	6,608
2024-25	6,473
2025-26	7,184

flects the continued recovery and growth of international air cargo operations after the disruption caused by the 2019 pandemic, Airport Director G Gopalakrishnan said.

“Crossing 700 tonnes of in-

ternational cargo in a single month is a significant achievement for Tiruchy Airport, particularly as this is the first time after the Covid-19 pandemic that we have reached this level.

The fact that the entire 721 tonnes consisted of exports is especially encouraging and shows the strong demand from exporters in the region,” he added.

The airport plays an important role in supporting regional agriculture, fisheries, food products and international trade, Gopalakrishnan added.
